I have since 1982 worked in different on- and offshore-related companies in the area of technical insulation and architectural outfitting. I have held different positions from site manager, technical manager, and up to general manager. I have been co-owner of Scan-Isolering AS, and am now, both part of the owner group and General Manager in Carpin AS. I have experience from the architectural and structural disciplines including design, engineering, calculation, planning, mechanical completion, commissioning and as-built documentation
